## A woman with dark hair, wearing a red and orange patterned dress, is kneeling on a green carpet. She is holding a dark rectangular block in front of her. In front of her is a stack of blocks, including a light pink one and a dark brown one. The background shows wooden shelves with various items, including boxes and books.

PMC offers two types of Montessori curriculum and training manuals;

- **Montessori Preschool / Kindergarten** (for age 3 to 6 years).
- **Montessori Lower Elementary** (for age 6 to 9 years).

The pre-school and lower elementary curriculums consist of 12 fully coloured manuals and 14 highly illustrated grayscale manuals respectively, which contain the most up to date Montessori content. The first rated material will be a life time teaching resource for you, either you are a mother, teacher or are running your own Montessori house of children. Each module provides a deep insight into the concerned area of Montessori education. All Montessori classroom activities are described in simple language and are supported with examples, illustrations and pictures.

# Managing a true Montessori school isn't a dream anymore!!!
